Bisacrylic self-curing composite resin for fast preparation in the surgery of temporary crowns and bridges. 4:1 Cartridges

Advantages

Practical: the cartridge selfmixing system permits optimal dispensing
Functional: it develops very low temperatures during polymerization
Die protection
Respect of tooth-periodontal relation
Tooth position preservation
Resistant to occlusal ad removal forces in masticatory cycles
Possibility of variation in shape and profile
Possibility of aesthetic characterization
Repairable

Characteristics

Self-mixing system in 4:1 cartridge
Monomer-free,multifunctional methacrylic esters formulation
Can be relined
Can be polished
Available in three stable, brillant shades
