

Predicta® Bioactive Desensitizer

Buy 1 Predicta® Bioactive Desensitizer Three-Syringe Kit, Get 1 Predicta® Bioactive Desensitizer Single-Syringe Kit Free*

- S625
- S626

Predicta® Bioactive Desensitizer is changing the way clinicians treat dentin hypersensitivity by using the elements that are naturally found in the tooth, (calcium and phosphate) and restoring them to the tooth in the form of hydroxyapatite plugs that **continue to form** in, and cause occlusion of, dentinal tubules. Notably, as calcium and phosphate ions **continue to release**, mineralization occurs atop the dentinal tubules to seal the tubules, as mineral apatite plugs continue to form.
