LUBRICATED AIR COMPRESSOR

Tech West Ultra Clean Lubricated Air Compressors are designed to meet your needs with our high performance drying system. We guarantee the clean, dry, oil free air you expect. The design of the lubricated compressor offers vibration free running. They are offered in a variety of configurations; singles, duels or triples to meet any need.

Tech West will provide full plumbing and electrical design upon request.

FEATURES	BENEFITS
Large cooling fan on each compressor head.	Provides cooling air to the heads prolonging compressor life.
Oil drain tubes on all lubricated compressor heads.	Easy maintenance of the compressor when changing the oil.
Drying system has a built in purge cycle.	Removes all condensation from the desiccant to insure clean dry air.
Built in handles on all compressors.	To make lifting and installing the compressor easy.
All compressor tanks are epoxy coated on the inside to meet ASME standards.	To prevent rust and corrosion damage to the tank.
Redesigned Air Dryer makes the unit more compact and reliable.	This allows the compressor to be installed under cabinets and in closets, saving space.
One handle dryer shutdown.	Quick shutdown and ability to continue working until a service call can be made.
Moisture indicators on the outlet air line.	Early indication of moisture in the air before any condensation occurs.
