Curing Light Units

Ledex LED Curing Light Unit (Dentmate)

Clear display, simple function including ramp mode, ease to use. **10 second fast cure:** Use high power 5W LED, **It can cure the composites over 3mm in 10 seconds. Never shutdown within continuous use:** Built-in smart heat-management system, don't worry over heat within continuous use. Continuous use lifespan is 100,000 hours **Combo of cordless & cord types:** When the power of battery is exhausted, plug-in the power supply and use it immediately

Unit Contains: 1 Ledex WL-070 handpiece, recharger power supply, 8mm light guide, handpiece holder, ultraviolet protection filter, anti-glare shield, 20 light cure shields and manual

ART-L5 LED Cordless Curing Light Tip (Bonart)

Curing Light Tip, each 25-11114

Blast-Light LED Cordless Curing Light Tip (First Medica)

Smaller and lighter-weight than the LED Blast, First Medica's cordless, wand-shaped Blast Lite is ideal for quick procedures and less burdensome for prolonged use. The high-power curing light provides a deep cure in 5 seconds or less and the long-lasting lithium-ion battery enables more than 1,000 5-second cures.

- High power, > 1,600mw/cm2
 - Removable glass tip, does not require sleeve than can obstruct work area, can be sterilized
 - Programmable audible beep
 - Timer setting of 5, 10, & 20 seconds
 - Metal case allows for easy cleaning
- 2 year warranty**

Unit 25-11116

Caries Detector LED Curing Light

- Radiant intensity up to 1,800 mW/cm2
- Color: black only
- LED's type: 10 watt violet & blue LED's
- LED's wavelength: 390~480nm, peak: 405, 460nm
- Efficient optics: up to cure resin 2mm in 3 seconds (high mode)
- Handpiece size Ø 38mm (max) x L190mm
- Handpiece weight: 180g
- Cradle size Ø 115mm (max) x H68mm
- Battery type lithium-ion, 3.7V, 2,500mAh
- Battery charge time approx. 2.5 hours
- Operating time 720 times in 10 seconds standard mode
- Power supply input: 100~240V, 50/60 Hz, output: DC 5V/1.2A

Full Unit: Handpiece, battery, cradle, power supply (AC100~240V/DC5V), optical fiber light guide rod (Ø11>8mm), optical fiber light guide rod (Ø11>5mm), filter, FINDTM optical filter, anti-glare shield, light guide sleeve, curing light sleeve & user

Battery Fit, WL-090+/WL, 25-99972

Curing Light Sleeve Fit, ledex 25-99976
WL-090+, 100pcs/box

Clear Blue LED Curing Light (Johnson Promident)

- High power 1,200 mW/cm2 for fast cures
- Emits light in the most relevant spectrum of 430-480nm wavelength to efficiently solidify any brand of resin
- Three working modes and exposure times for any clinical protocol
- Super-compact, lightweight and cordless for the ultimate in convenience
- Cool & silent, no fan necessary
- Li-ion battery with super capacity and no memory effect
- Can be operated cordless or with cord

Coltolux LED (Coltene Whaledent)

Combines a slim curing probe with high output in a cordless lightweight pen-style design. Its heat sink technology reduces the amount of heat emission and eliminates the need for a fan.

- Slim curing probe is ideal for hard to reach posterior areas
- Done shape lens concentrates light output on the restoration
- LED light output matches the absorption spectrum of camphorquinone photo initiators
- Audible signal every 10 seconds and automatic power saving sleep mode after 60 seconds of operation
- Hundreds of cures with a fully charged battery

Curing Light Includes: 25-26111

Handpiece, charger base, power supply, 3 light shields, 2 light lenses, 100 barrier sleeves

Cordless Curing Light System LED 60N (TPC)

Features

- Low battery signal - visual and audible alarm
- Easy to ready - LCD display
- High light intensity - 5 to 10 second cure
- No down time
- Flexibility - corded and cordless light cure
- Quiet fan - extends life of LED
- Sleep mode - conserves power, saves battery life

Package Includes the Following

- LED 60N cordless curing light
- Charging base
- Protective eye-shield
- 8mm light guide
- Built-in power transformer
- AC power supply

Cordless Curing Light 25-17001

Replacement Light Guide (8mm) 25-17002

Replacement Protective Eye-Shield 25-17003

Replacement Rechargeable Battery for LED 60 25-17004

Cordless Curing Light System LED 70N (TPC)

Features

- Low battery signal - visual and audible alarm
- Easy to ready - LCD display
- High light intensity - 5 to 10 second cure
- No down time
- Flexibility - corded and cordless light cure
- Quiet fan - extends life of LED
- Sleep mode - conserves power, saves battery life

- Fast mode - 3 output modes
2,000 - 1,500 - 1,000

Package Includes the Following

- LED 70N cordless curing light
- Charging base
- Protective eye-shield
- 8mm light guide
- Built-in power transformer

- AC power supply
- Lithium ion battery
- Countertop stand with power indicator
- User's manual

LED 70 Cordless Curing Light 25-16991

Replacement Light Guide (8mm) 25-16992

Replacement Protective Eye-Shield 25-16993

Replacement Rechargeable Battery for LED 70 25-16994

Cordless LED Curing Light 55N (TPC)

Benefits

- Ergonomic, light weight design
- High intensity output up to 1 hour before recharging
- Cordless for ultimate convenience
- Cures most materials in 5-10 seconds
- Curing time: 20 seconds per cycles with beep every 10 seconds
- 2 batteries included

Cordless Curing Light 25-17021

Replacement Light Guide 25-17022

Replacement Battery 25-17023

Replacement Protective Eye-Shield 25-17024

Curing Light Bulb 12 Volt 100 Watt (Parts)

- EFOS lite
- Demetron
- Henry Schein VCL 300
- Kinetic instruments sunspot
- S.S. white profile VCS
- Teledyne getz focus
- L.D. caulk prismatics lite
- Pro den executor
- Kulzer translux CL
- Den mat ceri light

Curing Light Bulb EFOS, each 25-11119

Curing Light Bulb 120 Volt 250 Watt (Parts)

- Midwest insight I&II
- Chapman (60-575-00, 60-580-00, 60-590-00)
- Sci can (dual lux 2, curing)
- Healthco visible curing/ illuminator
- Dentsply triad 2000
- Kavo (vicon DLS, polar II, LS illuminator)
- Lares quartz file LX

Curing Light Bulb M, each 25-11120

Curing Light Bulb 14 Volt 35 Watt

- 14 volt, 35 watt
- Connector type: pin
- Healthco aristocrat II
- Demetron (optilux 50, 150)
- Patterson TCL 390
- EFOS 35
- Well dental elcelux
- Faro P287
- Vivadent (heliolux, 2)

Curing Light Units

Bulb, each 25-109951

Curing Light Protective Eyewear

Provides superior blue light protection and filters out up to 98% of harmful blue light frequencies without distorting vision or field of view during restorative and whitening procedures

Features & Benefits

- Superior protection
- Filters 98% of dangerous light
- Scratch resistant

Each 39-109771

Curing Shield (PlasDent)

4 7/8" W x 10" L, each 39-11106

Cybird Gold Dual Band LED Dental Curing Light

Generates low heat & still maintains high intensity

- 3 curing modes: high power/ plasma/ ortho modes
- Wavelength: more compatibility with most resins (400nm~490nm)
- 3 complimentary light guides included: 45 clear 8x8mm/ 90 clear 8x8mm/ transilluminator tip
- 9-chip LED maintains stable light output & minimizes heat generation

Full Unit 25-110601

Cybird XD Cordless LED Curing Light

- Top quality curing light
- 2,700 mW/cm² light intensity
- 1.5 seconds to cure composite
- 2 exceptionally powerful curing modes for rapid curing of light-cured materials
- Constructed with robust industrial grade aluminum for lightweight, excellent durability and heat dissipation
- Built-in advanced protection module prevents the device from overheating and guarantees safe & flawless performance

2 year warranty

Dr's Light Wireless Curing Light (Good Doctors)

Dentists can choose the time and power as your convenience. Design of Dr's light is ergonomic design to be adopted each strongpoint of gun type, and pen type. Dentists can not feel tiredness, even though use very long time. Dentists can easily check operating state, because full color LCD built in display window of Dr's light. Battery pack of Dr's light is detachable type to be easily interchange. Patient can not feel unpleasant feeling from Dr's light to be made up for the weak points of any noise, heat wind. Be able to use more than 400 times by high mode after full charged. Be able to use more than 1,000 times by normal mode after full charged.

Specifications

- **5 seconds is all you need & enough for composite cure**
- High power 1,600mw/cm²
- Various curing program modes
- Ergonomic design (gun type & pen type)
- Color LCD screen
- Unique thermal control system
- Long time use

18 month limited warranty

Curing Light Unit 25-11131

Guide Tip 11mm 25-11128

Battery For Dr's Light 25-11127

Anti-glare Shield 25-11126

Fusion 4 Curing Light (Dentlight)

It is a heavy-duty high-end light made of solid aircraft aluminum yet small, sleek and vert well-balanced. It dramatically saves curing times, improves quality and covers all composite restorations including fillings, sealants, veneers and crowns with ease. With patented optics and modular design, it delivers a focused low-dispersion uniform beam with 2,700 mW/cm² high power for bulk or 5-second cure and 1,300 mW/cm² pulse power for low shrinkage/heat cure

Fusion 4 has an impressive, intuitive and multi-color backlit LCD that amazingly displays a digital timer, battery icon, power level, thermal status and has an audible beep for time stamp. Its unique user interface with metal keypad is easy to activate with a large on/off button in the front

Fusion 4 Kit Includes: *Handpiece, charging stand, 1-tacking tip, 1-9mm curing cap, 1-13mm curing cap, power adapter, light shield, barrier sleeves (100), stand stick pad, instructions for use, & 2-year warranty (1 year battery assembly/charging stand warranty).*

Fusion S7 Curing Light (Dentlight)

An economic version of the award-winning Fusion™, curing light featuring a 1,200 mW/cm² high power. It is competitive in performance with most of the high-end light yet at a significant discount in price with superior quality. It comes with a 10mm wide tip, easy one button operation and a fixed 10 second timer with 5-second beep. Lightweight, balanced and sleek, Fusion S7 is a dependable high quality light made of solid metal modularized kits with shock proof reliability.

Kit Include: *Handpiece, power adapter, one 13mm curing cap, charging stand, stand stick pad, 100 barrier sleeves, user/service manual, & 1 year warranty.*

Full Kit Unit, silver color 25-13137

Hilux 250 Turbo Curing Light (First Medica)

Have been a market leader for over 10 years. Hilux has earned a reputation for reliability and exceptional value. Hilux lights will cure all light activated materials. All Hilux curing lights are pistol shaped for good ergonomics. Hilux lights are corded so the user never needs to worry about low battery charges

- Comes with 11mm tip & turbo tip
- Accepts all Hilux and Demetron light guides
- Output over 1,000mw/cm²
- Light has "always on" mode and can be used for bleaching

2 year warranty

Unit 25-11140

iCure Cordless LED Curing Light (Pac-Dent)

With high-intensity output over 1,400 mW/cm², the iCure curing light is designed for fast-curing all brands of resins. The light operates within the 430-nm~480-nm wavelength. Lightweight and cordless, the light features 3 pre-programmed working modes and a slim body that encases cool, silent operation which enhances user and patient comfort. Its super capacity lithium-ion battery will last for hours before having to recharge. The light is comparable to the best LED curing lights on the market in terms of quality and convenience features, but at only a fraction of their costs.

Advantages

- Designed to reach hard-to-cure spots
- Built-in radiometer
- 20,000 hours of LED lifetime
- Slim, lightweight, & cordless
- Programmable timer

iCure LED Curing Light 25-11141

Turbo Tip Light Guide, 8mm 25-11200

LED Blast Curing Light Unit (First Medica)

The pistol shaped LED Blast is shaped for maximum comfort with prolonged use. This light is the workhorse of curing lights, tough and robust. These light use a massive aluminum heat sink to absorb heat from repeated use without requiring a battery draining a fan. May practitioners have found that the pistol shape is optimal for all day use

an alleviates the symptoms of carpal tunnel syndrome and other repetitive motion strains.

Features

- High power > 1,100mw/cm²
- No limitation on number of duty cycles - does not need to be shut down to cool
- Removable glass tip fits all Hilux™ and demetron™ curing lights
- Ergonomic pistol shape
- Time settings of 5, 10, 20 & 30 seconds
- Beeps at on, every 5 seconds and off
- Robust design for hard day-in, day-out use

2 year warranty including on battery

LED Blast Unit w/ Standard Tip 25-11143

Turbo Tip 25-12144

LedMax 550 Cordless Curing Light (First Medica)

- High power > 1,500mw/cm²
- User replaceable li-ion battery pack
- Up to 90 minutes continuous use
- 13-8mm fiber optic glass turbo tip, fits all Hilux and Demetron units
- Integrated light meter with duo color indicator
- 3 color battery indicator on both the hand gun and charging base
- Programmable audio signals every 5 seconds or silent
- Timer settings 5, 10, 20, 120 seconds and continuous
- Can be used with cord if battery become exhausted
- Mobile handpiece holder included

1 year warranty

Complete Unit 25-89561

Curing Light Units

Litex 680A Halogen Curing Light (Dentamerica)

- Gun type, 9mm standard probe, automatic timer with audible tone
- 75 watts, 12V, tungsten halogen lamp
- Internally-mounted super-cool fan or continuous duty
- Accurately calibrated automatic timer allows preselection of cure rate from 10 to 60 seconds with audible tone
- Interrupt cycle capability. Ergonomically designed "pistol grip" for maximum comfort
- Autoclavable fiber optic probe, full 360 degree rotation for easy access
- A thermal switch to safely shut the unit off when overheating
- Unit is available for 100/110 volts 50/60 Hz, or 220/240 volts 50 Hz operation
- Unit can be wall mounted or free standing
- Wave length: 350-520nm light intensity: 450-700 mW/cm2

Package Includes: *9mm general purpose probe and eye protection shield for safety operation*

1 year warranty

Litex 696 Cordless LED Dual Intensity Curing Light (Dentamerica)

Thin and light weight dual intensity light polymerization LED curing light. Standard autoclavable 8.5mm probe with 360 rotation for easy access. No more bulbs to replace with average LED life of 50,000 hours. Conveniently located buttons set timer and intensity for two stage step-cure. Two stage polymerization with initial lower intensity prior to higher intensity polymerization resulting in less shrinkage stress

- Delivers 1,200 mW/cm2 of power - cures to a depth of 4mm in under 10 seconds
- Large lithium battery capacity provides 750 10-second cycles when fully charged
- Recharges to full power in six hours
- 10-minute auto power off battery saver
- Smooth, contoured ergonomic design offers maximum comfort & control - weighs only 5.9oz.
- One-touch start/cycle-interrupt button
- Autoclavable 8.5mm fiberoptic glass tip rotates 360° for full arch areas
- Built-in light intensity monitor
- Low-battery warning beeper

Unit Contains: *Autoclavable 8.5mm fiber optic light tip, orange bonding shield, 12 disposable orange tip shields, and charging base with detachable 9VDC power charger/adaptor. 110V*

1 year manufactures warranty

Fiber Optic Light Guide	25-710811
Battery	25-710812

SPEC 3 LED Curing Light (Coltene Whaledent)

The S.P.E.C. 3 defines performance without compromise. Chair time can be reduced due to rapid and deep polymerization on various light cured materials. The sealed construction of the S.P.E.C. 3's aluminum body ensures quick and easy disinfection between patients. The powerful lithium polymer battery offers enough storage capacity to perform over 300 10-second cures between charges. The S.P.E.C. 3 features multiple curing modes (**3K, Standard, Ortho**) for maximum functionality in any clinical situation.

Multiple Modes

- Standard mode - Ideal for most composite curing scenarios
- 3K mode - For rapid curing when time is an issue, like pedo or patients with gag reflex
- Ortho mode - Cures an entire full-arch of brackets with 2 3-second intervals per bracket

S.P.E.C 3 LED Curing Light	25-11189
-----------------------------------	----------

Valiant LED Curing Light (Vista)

- Multispectral and versatile to polymerize nearly all light-cured dental materials
- Lightweight and ergonomic style
- Precision optics provide a uniform beam through **THREE** curing modes
- Intuitive, easy operation with one-button soft touch on/off switch for curing mode transillumination features
- Cordless handpiece with "quick change" battery pack that's easily detached, & re-attached

Curing Light Unit Includes:	25-11181
