Lock-n-Reload Couplers (IndiGreen)

*Twist-lock
design prevents
cross-mixing
materials*

You don't want to start a crown procedure with a two-thirds empty cartridge, but it's too much to throw away. Save up to 30% on your cost of VPS impression material by combining partially used cartridges with the innovative Lock-n-Reload™ coupler. Use one coupler and an extruder gun to quickly make full cartridges from a batch of "leftovers".

Saves motion spent switching material cartridges on the fly.
Keyed design eliminates the chance of accidental cross-mixing of impression materials during refills.
Twist-lock prevents cartridge separation during transfer.
For use with high-performance (rounded flange) automix cartridges.

20 blue disposable plastic couplers 37-87981 **23.95**
